<p>What makes a “good” recruiter</p>	<p>Alexandra Bolton’s experience has been in software, in financial services, and in government. She was one of the earliest employees in the corporate advisory section of Hill Samuel, a company now better known as Macquarie Bank, also “the Millionaire Factory”. She left before she became a millionaire, but gained experience and contacts which have assisted her to this day.</p> <p>Her government experience came with Austrade, where she was part of the legal team. The contacts she made there assisted Recruitment Systems in sourcing the best technical people in the world.</p> <p>As part of the founding team of Recruitment Systems she has seen the company grow from very humble beginnings to where it is now one of the world’s leading companies supplying services to the recruitment industry. Her input to Recruitment Systems has been at the operational and advisory level – operationally in doing, establishing and overseeing the essential backroom logistics of the company; advisory in being the key sounding board for the company.</p>

Title	Speaker
<p>Kinesiology and strapping</p>	<p>Stephanie Vidler graduated from Podiatry in 1989 in NSW after what seemed like eons of wanting to play with feet. She commenced her working career at Hornsby and Westmead Hospitals whilst establishing her first practice in the Hills district of Sydney. Selling that a few years later, she made the Sea Change to the Central Coast of NSW and has been practicing there for 20 years. Employing 6 Podiatrists, this was one of the busiest Podiatry practices in NSW. During those years, she studied in the USA, lectured, was awarded the NSW young business woman of the year in 2000, married, had a child, divorced, remarried, fostered children, mentored podiatry students BUT still had ample time for her number one passion.... SKIING. She sold her practice last year to concentrate on her family and do a lap of Australia in a Winnebago and "smell some roses". Stephanie now works as a locum in her old practice at Umina Beach and in Sydney. When not working, she loves to ski, row, swim and bike ride. All this has to be done to compensate for her other passions...food and wine. In 2012 she not only completed her CSIA level 1 but also qualified as a Zumba instructor - Watch out!</p>
